

Luciano Campos Kriegl

Software Development Technician

 lucianocampos.k@gmail.com |  Rosario, Santa Fe, Argentina |  +543416589951
 lucianock.com

Professional Profile

Full Stack Developer based in Rosario, Argentina, with over 3 years of experience. Specialized in PHP, JavaScript, and MySQL, currently focused on the Laravel ecosystem and cybersecurity.

I have participated in the entire lifecycle of web applications: from requirements analysis and estimations to architecture, development, testing, and integration with external services.

I work on custom management systems for the pharmaceutical industry, including customized CRMs, API integration, development of specific modules, ETL automations, and metrics management. I also participate in the technical evolution of solutions: deployments, maintenance, and server configuration.

Work Experience

Idealsur.com – Remote (Buenos Aires)

February 2022 – Present

- Development of CRMs oriented to the pharmaceutical industry, mainly with PHP, JavaScript, and MySQL.
- Participation in the entire cycle: requirements analysis, design, development, testing, and support.
- Integration of external APIs and generation of customized reports for clients.
- Server configuration and support, deployments from local environment to production, and database management.
- Technical collaboration in agile environments, code review, and promotion of best practices.
